- 1** Your car is the second largest investment you're likely to make. Preserve its value and your safety by having it repaired professionally.
- 2** Never drive a car that could be unsafe because of damages.
- 3** Some insurance companies may want you to visit their drive-in claims center before having your car repaired. You can do this, or you may leave your car at our shop and ask that the insurance company inspect the car here.
- 4** There is no law requiring you to obtain more than one estimate or appraisal.
- 5** You have the right to go to the repair shop of your choice. Your insurance company cannot require you to go to a particular shop.
- 6** Differences in repair estimates are common. A lower estimate may not include all necessary work. If you're not sure why one estimate is different from another you've received, please ask us.
- 7** Choose a shop that has uni-body repair equipment and certified (by I-CAR or ASE, for example) technicians.
- 8** Ask if the shop will be using genuine manufacturer (OEM) replacement parts.
- 9** Ask if the shop offers a repair warranty.
- 10** Let us help you negotiate your claim with the insurance company.
